Ted and I were on the call today with Damien and Danielle (and Thelma, at times). EPA was amenable to the comments we sent last Friday (9-11). Ted further edited language in the RtC pertaining to (b) (5). Ted doesn't need to see the final wording, but I asked that we see the final versions to give a quick read of the final edited language in the comments.

Damien said that this permit (b) (5). This matter is being dealt with in conjunction with EPA HQ in DC.

Damien, (b) (5).

EPA is on track to get this permit out by September 30th.
